In this book, Justin DePlato examines and analyzes the reasons and justifications for, as well as instances of, executive emergency power in political thought and action. The book begins by analyzing the theory of executive emergency power across a wide breadth of philosophical history, from Ancient Greek, Renaissance, through modern American political thought. This analysis indicates that in political philosophy two models exist for determining and using executive emergency power: an unfettered executive prerogative or a constitutional dictatorship. The modern American approach to executive emergency power is an unfettered executive prerogative, whereby the executive determines what emergency power is and how to use it. The book addresses the fundamental question of whether executive power in times of crisis may be unfettered and discretionary or rather does the law define and restrain executive emergency power. The author analyzes the U.S. Constitution, formerly classified Department of Justice Memos, primary sourced letters, signing statements, executive orders, presidential decrees, and original founding documents to comprehensively conclude that presidential prerogative determines what emergency powers are and how they are to be executed. This book challenges the claim that presidents determine their emergency power with appropriate congressional oversight or consultation. The analysis of the empirical data indicates that presidents do not consult with Congress prior to determining what their emergency powers are and how the president wants to use them.
