Brand New Book ***** Print on Demand *****.No rational mind - given the evidence of buttons and buttonholes in an article of clothing - would deny that both intelligence and design played roles in the fabrication of such a garment, but - mystery of mysteries - the brightest and most educated in our culture, reject such considerations for all the infinitely more complex living organisms, insisting (dogmatically) that they somehow evolved by haphazard, sequential, random mutations. A challenge is therefore, proposed - to anyone anti- Intelligent Designer, who believes he has not been brain-washed, but who has at least a hair-line crack to open-mindedness - to refute the material herein - the non-factuality and astronomical improbabilities of pure random-chance-mutations of individual elements (among the multi-billions in the DNA helix) as a credible belief system in explaining: u the spider, butterfly, or bacterium flagellum (Pajaro Dunes Micro-Biology Conference - scientists challenging Darwinism); u male-female sexuality feelings: irresistible sex-drive before; gratification after - evoking propagation and proliferation of mammalian species; u the (simple, yet ever so complex) umbilical cord concept for mammals - from kittens to humans? This book is a scholarly review (in layman terms) of all pertinent aspects of Science versus Bible in all applicable fields: Archaeology, Astronomy, Biology, Cosmology, Egyptology, Paleontology, Physics, etc., with over 300 references to the arcane writings of world-class scientists, historians, mathematicians and adventurers.
