The directions on many toxic cleaners tell us to use them in a well ventilated area, but mostly we need to use them in a bathroom without windows. Harsh chemical cleaners can be harmful to our children and pets. They can also be expensive and have bad smelling toxic fumes. So what s the alternative? I recently discovered a way to make several eco-friendly organic cleaning products at home. By using a few safe ingredients, many of which are already found in your kitchen; you can make safe and pleasant smelling organic cleaners and more. These eco friendly solutions are low cost and easy to make. Would you like to enjoy a cleaner home without toxic chemicals?.
