HAVE now given a general view of the Walcheren Intermittent fever., and stated the treatment which was commonly pursued for its removal, where no adverse circumstances interfered, and prevented its adoption. The Walcheren Intermittents were not common cases, not such as would, to use a sporting phrase, afford a man fair play, they were so combined with dangerous and perplexing symptom as at times to baffle experience and render the efforts of art fruitless. In a stomach irritable in the extreme., how could bark, or the usual medicines, be given with-safety? how could they be exhibited without danger? and when the intestinal canal was irritable, and disposed and success in their favor, is not always safe because-not always-safe, and all that can be done-in situations so unpleasant-is cautiously to attempt to do good, but still more cautiously to avoid doing harm. What? . V x to 1 liarplBttj wliatnan would have been mad enough to administer the cuprum, or zincum vitriolatum? Again where difficult respiration, pain of the breast, and distressing cough existed with a severe Quotidian Intermittent common remedies were positively forbidden, and when in addition to these symptoms there was often visceral disease, anasarca swellings, and great of - - - -, - , - , s ft, . r - . The Walcheren-Intermittents were often attended with putrid malarial syniptottis/ and such cases were almost entirely fatal for Avhile pain of the breast/difficult epiratin distressing cough, and troublesome expectoration existed it was impossible to administer any effectual...
