Springer. Paperback. Book Condition: New. Paperback. 300 pages. Dimensions: 9.2in. x 6.1in. x 0.6in. The SAMOS workshop is an international gathering of highly qualified researchers from academia and industry, sharing their ideas in a 3-day lively discussion. The workshop meeting is one of two co-located events the other event being the IC-SAMOS. The workshop is unique in the sense that not only solved research problems are presented and discussed, but also (partly) unsolved problems and in-depth topical reviews can be unleashed in the scientific arena. Consequently, the workshop provides the participants with an environment where collaboration rather than competition is fostered. The workshop was established in 2001 by Professor Stamatis Vassiliadis with the goals outlined above in mind, and located in one of the most beautiful islands of the Aegean. The rich historical and cultural environment of the island, coupled with the intimate atmosphere and the slow pace of a small village by the sea in the middle of the Greek summer, provide a very conducive environment where ideas can be exchanged and shared freely. The workshop, since its inception, has emphasized high-quality contributions, and it has grown to accommodate two parallel tracks and a number of invited sessions. This year, the workshop celebrated its eighth anniversary, and it attracted 24 contributions carefully selected out of 62 submitted works for an acceptance rate of 38.7%. Each submission was thoroughly reviewed by at least three reviewers and considered by the international Program Committee during its meeting at Delft in March 2008. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
